THE ARGIR GROUP

SUNY Cortland: I have nothing but praise for them. They are an extraordinarily talented group of performers. The audience were the best we've had in a long time, coming back two or three times for more. Individually, they were beautiful people and as a group wonderful to work with. We'd love to have them back.

Leicester Jr. College: Excellent group. Highly enthusiastic and appreciative audience response. Thank you for recommending them.

Keene State: Excellent! Outstanding group! Great people! Good to work with.

Barrington College: Excellent. Blend and easy manner, plus some creative mixing of material made this group the favorite of the semester.

Western New England College: Definitely one of the best groups on the Circuit. Excellent.

SUC Potsdam: Great! Very pleased with group - personally and professionally. Original material very good. Betsy Bernard very good.

Monroe Comm. College: Very cordial and easy to get along with. Very good group. Generally approved by all.

St. Bonaventure U: Fabulous! Real people and real professional artists, the likes of which I've seldom seen.

Morrisville Ag & Tech: Good - very good. Would enjoy having another act and possibly joining the Circuit next year.

Cobleskill: Very Good. Beautiful blend, nice variety, good transitions from song to song.

St. Lawrence U: Very favorable. Very cooperative group. Professional and competent.

SUNY Canton ATC: Excellent. They were, by far, the most original group we've had.

RPI: Great. Three very bright, hard-working, fun people.

Ocean County College: Excellent! Still batting 1000, Marilyn.

BANYAN TREE

Salisbury: Very well received. Great performers: very friendly to audience.

STEVE BARON

Fairmont St. College: Folk-rock music

- D. 120 watts R.M.S. (280 watts peak).
 - E. Patching connections for use with mixers, slave amplifiers, monitor speakers, etc.
 - F. Provisions for stacking two or more concert amplifiers.
- II. Two concert speaker enclosures.
- A. Each enclosure contains four 12
